PLANNING COMMISSION STAFF REPORT

Agenda Item 6.a

Meeting Date: November 3, 2025

SUBJECT: Discussion and direction on Draft Title 11, Chapter 13 Sign Ordinance Amendments

PREPARED BY: Rafael Castillo, AICP, Community Development Director

DISCUSSION:

Background

At its special joint meeting with the Planning Commission on March 13, 2025, city staff received direction on proceeding with proposed sign ordinance amendments. City staff has commenced amending the sign ordinance based on comments and feedback received from the workshop and its November meeting with the City Council. City Staff has taken the draft sign ordinance to the Design Review committee in three sections to receive input and discussion. The DRC discussed the sign ordinance at its June, August, and October meetings of 2025.

City staff has further revised the draft ordinance based on the solicited comments, and now seeks input from the Planning Commission. The Planning Commission should review and provide comments to city staff to help refine the sign ordinance. This is a working draft of the Sign Ordinance and some items will be re-arranged, or new figure numbers and table numbers are subject to change. The goal is to take the comments and present an administrative draft to the City Council in January 2026 and then proceed with formal amendment and adoption of the ordinance at the February 2026 Planning Commission meeting.

Why Amend the Sign Ordinance

The draft sign ordinance represents a comprehensive modernization of the City's approach to regulating signage. The current ordinance has served the community for many years but has become increasingly difficult to administer and defend due to evolving case law, new technologies, and the need for greater flexibility in sign design and permitting, as evident from feedback from business and property owners. The draft sign ordinance seeks to preserve Solvang's distinctive character while ensuring compliance with contemporary legal standards and improving the overall permitting experience for businesses and property owners.

A major focus of the update is the introduction of content-neutral regulations, consistent with the First Amendment and recent court decisions such as *Reed v. Town of Gilbert*. The revised ordinance eliminates references to specific types of messages such as real estate, political, or event signage, and instead regulates signs based on their physical characteristics, placement, and duration. This approach ensures that no distinction is made between commercial and non-commercial speech and that all signs are treated equally under the law. The ordinance also includes a "message substitution" clause, which allows any permitted sign structure to display a non-commercial message without additional approval.

Proposed Draft Changes

This table provides a section-by-section comparison between the existing Solvang Sign Ordinance and the draft sign ordinance. Each section summarizes the existing regulation, the proposed change, and provides commentary on the purpose and policy implications.

Section	Existing Sign Ordinance	Proposed Ordinance (V3)	Staff Commentary
§11-13-1 Purpose and Intent	Defines the Danish village aesthetic, traffic safety, and local identity as reasons for regulation.	Modernized for content-neutrality and objectivity, emphasizing community appearance, safety, and economic development.	Streamlined language to comply with First Amendment standards while maintaining Solvang's design intent.
§11-13-2 Applicability	Applies to all signs; minimal reference to non-commercial message rights.	Clarifies coverage for all sign types and explicitly includes non-commercial message substitution rights.	Expanded to ensure equal treatment of all messages; strengthens legal defensibility.
§11-13-3 Exempt Signs	Lists detailed exemptions (civic, construction, real estate, etc.).	§11-13-3 and §11-13-6 (Requirements) – Combined and simplified list of exempt signage such as government, temporary civic, utility, and informational signs.	Merged for clarity and efficiency; focuses on objective size and placement criteria.
§11-13-4 Prohibited Signs	Extensive list of banned signs including neon, flashing, roof, pole, and portable signs.	Updated to use modern, objective terminology and includes new prohibitions (e.g., digital displays, feather flags).	Simplified and modernized; eliminates redundant or subjective language while maintaining core restrictions.
§11-13-5 Sign Permits and Procedures	General process via Planning Manager and Design Review Committee (DRC).	Renamed to §11-13-5 Application Requirements and Permit Procedures – Introduces Administrative Sign Permits, Sign Programs, with a clear review table assigning authority and appeal process.	Adds flexibility: staff can approve routine signs; DRC focuses on complex or unique applications.
§11-13-6 Sign Standards and Measurement	Defines sign area and maintenance; limited illustration or measurement detail.	Renamed to §11-13-6 Requirements and Measurements – Adds illustrated figures for sign area, multiple objects, and height. Introduces illumination limit (10 foot-candles) and maintenance obligations.	Combines measurement and design criteria from multiple sections for clarity and enforcement consistency.
§11-13-7 Sign Standards (General)	Contains design criteria, maintenance rules, and general guidelines.	Merged into §11-13-6 (Requirements) and §11-13-9 (Permanent Signs).	Reorganized to avoid redundancy; integrates general standards with specific sign-type rules.
§11-13-8–10 Sign Standards	Separate zone-based tables for VMU and non-	§11-13-9 Permanent Signs and §11-13-10 Special Consideration Signs –	Simplifies review process and maintains consistency across

Section	Existing Sign Ordinance	Proposed Ordinance (V3)	Staff Commentary
by Zone and Type	VMU areas; highly detailed design prescriptions.	Streamlined with size, height, and design limits by sign type (e.g., wall, awning, directory, monument) and zone. Consolidates and standardizes sign type tables and adds new sign categories. Adds new categories such as murals (noncommercial), umbrella signs, and wayfinding signs. Clarifies design and permitting requirements.	zones; removes prescriptive design language but retains Danish character via Design Guidelines. Encourages creative signage while maintaining content neutrality and compatibility with public art and pedestrian environments
§11-13-11 Temporary Signs	Lists temporary sign allowances by event and zone with varying durations.	Now located into two different sections, §11-13-7 Limited Duration Signs and §11-13-8 Temporary Signs – Combines temporary and limited-duration sign standards with objective size and duration limits. Creates explicit A-frame, banner, and window sign standards with size, frequency, and display time limits. Adds 30-day change requirement for VMU A-frames.	Combines related sections; adds A-frame message change requirement in VMU; clarifies timeframes for compliance. Clearly defines time, place, manner for banner signs.
§11-13-12 Sign Permits – Application and Processing	Outlines application procedures and review standards.	Integrated into §11-13-5 (Application Requirements).	Procedural content consolidated to eliminate duplication and clarify responsibilities.
§11-13-13 Modifications and §11-13-14 Exceptions	Separate sections describing modifications and exceptions with findings for approval.	Merged into §11-13-5 (Exceptions to Sign Regulations).	Combines discretionary processes under one section; simplifies review path and findings criteria.
§11-13-15–16 Nonconforming, Abandoned, and Unsafe Signs	Addresses removal, repair, and enforcement separately.	§11-13-12 and §11-13-14 – Combines nonconforming, abandoned, unsafe, and illegal signs under one framework with consistent timelines.	Consolidates for clarity; establishes standard notice periods and ties enforcement to City's code procedures.

Section	Existing Sign Ordinance	Proposed Ordinance (V3)	Staff Commentary
§11-13-17 Enforcement and Penalties	Specifies enforcement by Planning Manager and general penalties.	Integrated into §11-13-14 (Abandoned, Unsafe, and Illegal Signs).	Procedures streamlined and cross- referenced with Title 1 code enforcement provisions.
§11-13-18 Overall Sign Plans	Details requirements for coordinated center signage; reviewed by DRC.	Incorporated into §11-13-5 (Sign Program Requirements).	Process modernized as a formal Sign Program option reviewed by Planning Commission.
§11-13-19 Definitions	Contains a long list of sign- related definitions.	§11-13-16 Definitions for Sign Regulations – Updated and reorganized; adds new definitions for murals, digital signs, and content-neutrality.	Modernizes terminology and consolidates overlapping terms from older sections.

The draft ordinance adds greater clarity and objectivity to how signage is measured and maintained. It introduces illustrated examples showing how sign area, height, and placement are calculated, and it establishes measurable lighting standards that limit illumination to no more than ten foot-candles at ten feet from the sign face. These objective criteria make the ordinance easier to interpret, enforce, and defend. Maintenance standards are also strengthened to ensure that all signage remains in good repair and consistent with Solvang’s high-quality visual environment.

The draft ordinance introduces new and updated sign types to reflect modern business needs. These include provisions for murals (treated as non-commercial art when not advertising a product or service), wayfinding and directional signage, and more refined standards for monument and freestanding signs. Each sign type includes clear dimensional, design, and placement standards.

Overall, it is hoped that the draft Sign Ordinance strikes a thoughtful balance between regulatory efficiency, aesthetic preservation, and legal defensibility. It maintains the City’s longstanding commitment to high-quality, context-sensitive design while offering clearer pathways for approval and greater flexibility for businesses. By introducing content-neutral language, measurable standards, and a streamlined permit process, the ordinance provides a modern, enforceable framework that supports both the economic and visual vitality of Solvang.

ATTACHMENTS:

Attachment A – Draft Sign Ordinance

Chapter 13 Sign regulations

§ 11-13-1 Purpose

- A. Purpose. The Purpose of this section is to promote economic development, traffic safety, and pedestrian safety to enact sign regulations for the City of Solvang as a unique and distinctive Danish village in a California with historic tradition and maintaining natural beauty and retaining its “Old World Danish” charm. These sign regulations will:
1. Maintain the aesthetic environment and community appearance to foster the city's ability to attract sources of economic development and growth;
 2. Encourage the effective use of signs as a means of communication in the city and reduce possible traffic and safety hazards from confusing or distracting signs;
 3. Implement quality sign design standards that are consistent with the city's general plan, zoning ordinance and objective standards;
 4. Enable consistent enforcement of these sign regulations;
 5. Minimize possible adverse impacts of signs on private and public property to maintain a positive city image;
 6. Enhance traffic safety by ensuring that signage does not distract, obstruct or otherwise impede traffic circulation and to safeguard and preserve the health, property, and public welfare of Solvang residents through prohibiting, regulating, and controlling the density, location, and maintenance of signs;

§ 11-13-2 Applicability.

- A. This Section applies to all signs including on-site signs, off-site signs, and temporary signs within the City.
- B. No person shall install, alter, or relocate any sign within the City without first meeting requirements of Section 11-13-5 (Application Requirements) unless otherwise exempt consistent with Section 11-13-4.
- C. Nothing in this Section shall be construed to prohibit a person from holding a sign while picketing or protesting on City property and/or right-of-way that is open to the public, so long as the person holding the sign does not block ingress and egress from buildings, create a safety hazard by impeding travel on sidewalks, in bike or vehicle lanes, or on trails, or violate any other reasonable time, place, and manner restrictions adopted by the City.
- D. This Section is not intended to, and does not, restrict speech on the basis of its content, viewpoint, or message. No part of this Section shall be construed to favor commercial speech over non-commercial speech.
- E. A non-commercial message may be substituted for any commercial message displayed on a sign, or the content of any non-commercial message displayed on a sign may be changed to a different non-commercial message, without the need for any approval or permit, provided that the size, and location of the sign is not altered. The purpose of this provision is to prevent any inadvertent favoring of commercial speech over non-commercial speech or favoring of any particular non-commercial message over any other non-commercial message. To the extent any provision of this Section is ambiguous, the term shall be interpreted not to regulate on the basis of the content of the message. This provision prevails over any more specific provisions to the contrary.

- F. Where a particular type of sign is proposed in a permit application, and the type is not expressly allowed, restricted, or prohibited by this Section, the Review Authority shall approve, conditionally approve, or deny the application based on the most similar sign type that is expressly regulated by this Section.
- G. Where a sign may be subject to multiple provisions of this chapter because it may be considered to fall within more than one of the sign type definitions of Section 11-3-16 (Signage Definitions), the sign shall comply with the most restrictive requirements.

§ 11-13-3 Exempt signs

- A. Types of exempt signage. The sign types listed below are exempt from the requirement of a Sign Permit, and any corresponding fees provided that the sign is consistent with the standards of Section 11-13-6. The size and placement standards set forth in subsequent Sections shall be adhered to in order for such sign to qualify as exempt.

§ 11-13-6 Requirements and Measurements for Signage.

- A. Sign Message.
 - 1. Allowed signage may contain commercial or non-commercial message, provided that the sign complies with the size, height, area, location, and other requirements of this Section.

- B. Sign Measurement Criteria. The measurement for sign area and height shall be regulated as follows:
 - 1. Sign Area. The area of a sign is calculated by enclosing the extreme limits of all framing, emblem, logo, representation, writing, or other display composed of squares or rectangles as shown in Figure 11.13.1

Figure 11.13.1 – Sign Measurement Area

**Example of Individual Letter
Surface Area Calculation**

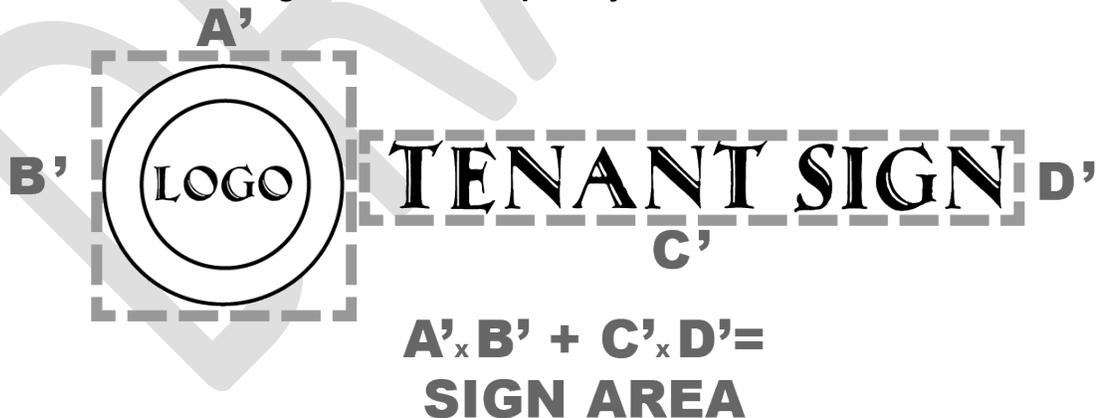

**Example of Surface Area Calculation
Limits of Framing**

2. Sign Structure. Supporting sign frame and support structures that are incidental to the display itself shall not be computed as sign area.
3. Double Sided Signs. The area of a double-sided sign that has no more than 18 inches separating the outer surfaces of the sign's two parallel planes shall be computed by multiplying the total height by the total length of only one side of the sign area.
4. Three-dimensional objects. Where a sign consists of one or more three dimensional objects (e.g., balls, cubes, clusters of objects, sculpture, or statue-like trademarks), the sign area is measured at their maximum projection upon a vertical plane.
5. Multiple Objects. When signs are composed of individual elements, the area of all sign elements, which together convey a single complete message, are considered a single sign as shown in Figure 11.13.2

Figure 11.13.2 Multiple Objects Calculation

6. Height. Sign height is measured as the vertical distance from the highest elevation of the finished grade below or surrounding the base of the sign to the top of the highest element of the sign. In cases where substantial fill is proposed, "finished grade" shall be established by the Director, consistent with properties in the immediate vicinity, and shall not be artificially raised to gain additional sign height. If highest finished grade surrounding the sign is lower than the grade of an adjacent street, the height of the sign shall be measured from the top of curb elevation nearest to the sign as shown in Figure 11.13.3

7. Measurement of Building Frontage. Measurement of building frontage shall be in feet measuring the façade that is facing or parallel to the street, right-of-way, or other public space. Measurement shall be a perpendicular line.
- C. Sign design, materials, colors, and illumination. All signs shall be designed and constructed in compliance with the following standards.
1. Design and construction.
 - a. Signs shall be in compliance with all applicable adopted design guidelines, handbook, and standards.
 - b. The size of the structural elements (e.g., columns, crossbeams, and braces) shall be proportional to the sign type they are supporting.
 - c. Signage shall be designed so that it is integrated with the design of a building.
 - d. Signs shall be securely attached to a building, structure or ground.
 - e. Freestanding signs utilizing bases shall be a minimum of one (1) foot in height with a maximum height of three (3) feet. Bases shall be decorative and located in a landscape planter.
 2. Materials.
 - a. Sign materials including framing, supports, and base, shall be compatible with the type and scale of materials used in the building's design.
 - b. Sign materials shall be durable and capable of withstanding weathering over the life of the sign with reasonable maintenance.
 - c. Use of raceways are prohibited.
 3. Illumination.
 - a. Lighting for signs shall not create a hazardous glare for pedestrians or vehicles.
 - b. The light source shall be shielded from view.
 - c. Externally illuminated signs shall utilize focused light fixtures that are directed towards the sign. These shall be top mounted light fixtures which shine light downward and are fully shielded. Low lumen output lights are encouraged.
 - d. Internally illuminated signs with light directed through the letters set in an opaque background. Lighting shall be designed so that illumination does not exceed 10 foot candles (100 lumens) measured at a distance of 10 feet from the sign. Internally illuminated signs are prohibited within the Design District (DD-1) overlay zone.
 - e. Signs in commercial and industrial zones with building elevations that directly face adjacent residential zones shall not be illuminated.
- D. Sign Maintenance. All signs shall be continuously maintained in compliance with the following standards.
1. Each sign and supporting hardware shall be maintained in good repair so that it is able to function properly at all times. This includes the replacement of burned out or broken light bulbs, and repair or replacement of faded, peeled, cracked, or otherwise damaged parts of a sign.
 2. Sign structures shall be free of unsightly electrical or supporting features, such as bracing, angle iron, guywires and cables
 3. Any repair to a sign shall be of materials and design of equal or better quality as the original sign.
 4. Signs that have been physically damaged by weather or physical impact shall be repaired.

5. When an existing sign is replaced, all brackets, poles, and other supports that are no longer required shall be removed.
 6. No sign permit is required for repainting, cleaning and other normal maintenance and repair of a sign, awning, lamp, or umbrella unless the structure, design, color or character is altered.
- E. Notice to Repair. When it is determined by the Community Development Director or their designee that signage, awnings or umbrella exists in a state of disrepair, notice of violation and corrective actions shall be taken consistent with Title 1 Chapter 3 of this Municipal Code.

§ 11-13-10 Special Consideration Signs

- A. Purpose. Section applies to permanent signs that are unique, or for sites located in specific locations, or based on size of sites.
- B. Signs for Special Consideration. The following are additional standards for the sign types below, in addition to standards found in this Title and Chapter.
 - 1. Art Murals.
 - a. Purpose. Encourage the creation and preservation of murals as a form of public art, to enhance the visual environment of the City, to prevent the commercialization of murals, and to ensure compliance with applicable law, including the First Amendment. Murals regulated under this section are expressly distinguished from signs and are reviewed in a content-neutral manner.
 - b. Definition of a Mural. Murals are considered a one-of-a-kind work of visual art, including hand-painted, hand-tiled, or digitally printed images, affixed to or painted directly on an exterior wall or other permanent exterior surface of a structure, that contains no commercial message.
 - c. Exempt from Sign Consideration. A mural that complies with this section shall not be considered a sign and is exempt from the sign regulations in Chapter 11-13, except as otherwise provided in this subsection. Any wall graphic or

display containing a commercial message shall be regulated as a sign under the applicable provisions of this Title.

- d. Review Authority. The Community Development Director, or their designee, shall review the application administratively for compliance with the standards in subsection. No public hearing is required.
 - e. Standards for Murals. The following standards shall be applicable:
 - i. Non-commercial content. A mural is noncommercial if it does not contain any logo, trademark, trade name, or other commercial identifier, and if the primary purpose is aesthetic, cultural, or expressive rather than to advertise.
