9-3C-4: BILLING:

A. Billing Period: The regular billing period will be monthly, and only one statement covering water and sewer service charges shall be rendered for each account.

B. Opening And Closing Statements: Opening and closing statements for less than the normal billing period shall be prorated. If the total period for which service is rendered is less than one month, the bill shall not be less than the monthly base charge plus whatever usage has been metered for that location. For purposes of expediency, closing bills may be estimated for the final period to permit the customer to pay the closing bill at the time service is discontinued. (Ord. 02-223, 11-12-2002)

C. Payment Of Bills: Statements for service shall be rendered at the end of each billing period. Statements shall be payable upon presentation. On each statement rendered by the city shall be printed the following:

If this statement is not paid on or before the twenty fifth day of the month following the month service rendered, service may be discontinued. A reconnection charge and penalties will be made and collected prior to renewing service following discontinuance.

(Ord. 03-229, 10-13-2003; amd. Ord. 04-232, 1-26-2004)

D. Billing Of Separate Meters Not Combined: Separate bills will be rendered for each service connection or meter installation except where the city has, for its own convenience, installed two (2) or more meters in place of one meter. Where such installations are made, the meter readings will be combined for billing purposes.
